## Public Health Division

January 18, 2022

Brown County Public Health (BCPH) would like to take an opportunity to share the most recent COVID-19 guidance for long-term care facilities, as well as key updates related to the way we will support long-term care facilities in our community moving forward.

**PLEASE NOTE:** BCPH's role in responding to ongoing outbreaks and disease investigation efforts for COVID-19 will change. We will no longer provide assistance with interpreting guidance specific to individual agencies. Instead, BCPH will continue to provide updated guidance at [www.stayhealthybc.com](http://www.stayhealthybc.com) on the [long-term care facilities page](#). BCPH will continue to track outbreak status, link positive cases to facilities, and close outbreaks as appropriate.

As of January 18, 2022, COVID-19 is still considered a Category I Disease. **Please continue to report COVID-19 outbreaks to BCPH within 24 hours** by submitting staff and resident line lists to our dedicated LTCF inbox: [BC.Health.Public.LTCF@browncountywi.gov](mailto:BC.Health.Public.LTCF@browncountywi.gov)
